

Attn: To Who it may concern

Dear Sir,

1<sup>st</sup> February 2022

**Subject: Letter of Recommendation**

STRYDE Limited ("**STRYDE**"), a 100% owned subsidiary of BP, based in London, UK has been working with Oksi-Balt and its CEO, Alexander Luzin for nearly 12 months. Oksi-Balt were identified by our logistics team as a competent and experienced agent for importing equipment in to the Russian Federation.

Setting up an arrangement with Oksi-Balt was easy and efficient and contracts executed in a timely manner despite working in dual language (Russian and English). Alexander has been very flexible in working with STRYDE on contract amendments to increase our requirements and involve our Moscow based Russian Branch.

We have initiated the process of importing our first consignment of equipment in to Russia and working with Oksi-Balt on organising the process of gathering documentation and technical information for the import licence which we have received within the targets set by Oksi-Balt. We look forward to working with Oksi-Balt on the physical import of the equipment in 1H2022.

STRYDE is happy to recommend Oksi-Balt to clients looking for an agent to handle the complex process of importing in to the Russian Federation in a multi-lingual environment.

Yours sincerely,

Alfonso Lanzetta  
Logistics Manager, STRYDE Limited
